

ENTERPRISE

Best Anti Malware Solution

Organized by Computing Security, one of the most prestigious and widely read cybersecurity online publications, **Computing Security Awards 2018** saw 12 products nominated for Anti-Malware Solution of the Year.

Among the finalists at the "**Anti-Malware Solution of the Year**" category were important and established names in the cyber security industry such as Kaspersky, Symantec, Malwarebytes, Sophos, or Trend Micro.

Out of them, **Thor Enterprise** was awarded the first prize, beating out security companies with decades of experience and presenting a rapid growth trajectory.

Our company's hard work and constant efforts invested in fighting malware and protecting more than **600,000 customers worldwide** have been recognized.

Thor Enterprise represents our sustained efforts into providing exceptional endpoint solution for our business partners in **more than 5,000 organizations across the globe** and for the hundreds of thousands of consumers who rely on us to secure their digital life completely.

Heimdal Security's **Thor Enterprise** is a flexible, modular endpoint solution with multi-layered security products your organizations need to combat advanced malware, ransomware, and other enterprise threats.

Explore a truly adaptive and complete security suite designed with your organization's needs in mind.
